kathryn.flanigan@family-medicine.ca

Upper Grand

Family Health Team

Barb Wagg, NP –PHC
barb.wagg@uppergrandfht.org

OBJECTIVES

- ❖ Describe the use of medications used to manage symptoms in dementia.
- ❖ Review starting, monitoring, and stopping use of cholinesterase inhibitors for dementia.
- ❖ Demystifying Type 1 Diabetes and renal/pancreas transplantation.
- ❖ Overview of grief process and role of NP; identifying grief disorders and management.
- ❖ Overview of renal disorders and nephrotoxic drugs.
- ❖ Overview of medications for primary prevention of cardiovascular disease: when to consider statins, anti-hypertensives and ASA with patients.
- ❖ Highlight NP achievements: Brief snapshot of leadership and innovations from nurse practitioners.

FEES: Before May 1st : \$75.00, After May 1st : \$100.00

Conference costs have been defrayed with the generous contributions from several pharmaceutical companies.
