

Email Consent Form

Consent:

By providing us with your email address you have consented to our use of the contact information.

What we use your email for:

- We may share your email information with other health care providers who are providing you with health care.
- We may use your email to keep you informed of your referral status when you have been referred to another health care provider.
- We may use your email to send you information about online health care programs (e.g. patient portals or opportunity to participate in virtual visits with your health care provider).

The emails you receive may come from your health care provider and/or our participating partners of the online health care programs that may be third party service providers.

Your responsibility:

You are responsible for informing us should:

- your email contact change.
- should you choose to no longer receive email communications from us.
- should you no longer wish to participate in the online health care programs you registered for.

Our responsibility:

- We will only share your email with other health care providers directly involved with your care or our participating partners that are helping deliver online health care programs.
- To protect your personal health information, we will not communicate with you via email to discuss personal health information, unless you have provided us with consent.

Risks of using electronic communication

We will use reasonable means to protect the security and confidentiality of information sent and received using email. However, because of the risks outlined below, we cannot guarantee the security and confidentiality of electronic communications:

- Use of electronic communications to discuss sensitive information can increase the risk of such information being disclosed to third parties.
- Despite reasonable efforts to protect the privacy and security of electronic communication, it is not possible to completely secure the information.
- Employers and online services may have a legal right to inspect and keep electronic communications that pass through their system, within and outside of Canada.
- Electronic communications can introduce malware into a computer system, and potentially damage or disrupt the computer, networks, and security settings.
- Electronic communications can be forwarded, intercepted, circulated, stored, or even changed without the knowledge or permission of the Physician or the patient.
- Due to the sensitivity of the information, we recommend that you do not use a shared email.
